(6) Employer: SAUDI GERMAN HOSPITAL ASEER

Period: 01/05/2013 to 28/10/2016.

Job Title: Resident in ICU.

Job Description: (Saudi German Hospitals are a group of hospitals accredited by JCI (joint commission international) and big tertiary centers in the middle east with branches in Saudi Arabia, Dubai and Cairo. The Aseer branch is a 400 beds hospital with a 45 beds ICU and 7 operating rooms.) My job as resident in ICU working independently to treat all, medical, surgical cases including aeromedical and neurosurgical cases, trauma and burn patients, perform preoperative assessment rounds and weaning off postoperative patients especially Coronary bypass surgery that are taken twice weekly in our hospital beside other thoracic surgeries, also covering mega codes in emergency department and inpatient floors.

(7) Employer: King Khalid Hospital, Najran, KSA.

Period: 6/5/2009 to 23/3/2013.

Job Title: Resident in ICU.

Job Description: The ICU in Najran is the only facility in a region of about 3 million habitants, consisted of 20 beds for both medical and surgical cases, been filled at all the times, with a team consist of 3 consultant, ten residents and plenty of nurses and respiratory therapist. It's fully equipped by needed machines.

I was in charge of patients care on my duties, having a master experience in managing airway, intubation, central lines, mechanical ventilation settings, weaning and extubation, chest tubes, lumbar puncture, dealing with septic shock patients applying Goal Directed Therapies ,ARDS cases applying Lung Protective Strategies , poly trauma cases with neurosurgical guidelines applied ,covering and leading mega codes in ER and general wards, and attending and preparing

scientific sessions held in the department.

I was an active member of ICU team dealt with many cases of H1N1 in 2011, 2012 and 2013. I also Formulated and revised all ICU policies and procedures and I was the ICU representative during CBAHI, JCI Accreditations.

King Khalid Hospital is the tertiary regional hospital with 300 beds capacity.

The hospital is recognized both nationally (CBAHI) and internationally as a member of the Joint commission international (JCI).

(8) Employer: The National Hospital.
