**Title:** Registrar of Emergency Medicine/Anesthesia/CCU/ICU (1 year rotation)

**Job type:** Medical training, MD degree.

**Hospital:** Omdurman Teaching Hospital and other hospitals in Sudan.

As a registrar of emergency medicine training for 6 months, I had the following responsibilities:

Supervising the EM resident doctors and see patients with them in order to make the initial management and the primary care in the ED and discuss with the EM consultants.

To provide the early management and procedures when needed e.g., ET intubation, FAST and bedside echocardiography, pleural and ascetic tapping, DC shock, and other traumatic and medical procedures, and report the activities in the registrar's logbook.

Beside my position in Omdurman teaching hospital - as I continued as secondment in the EM department- I took 3 months mandatory training in the ICU of the same hospital, then 2 months training in anaesthesia in Khartoum ENT hospital and 1 month training in the CCU of Alshaab Cardiothoracic hospital. In this period, I have training in airway management and other procedures of the critical situations and the care of the critical patients.

**Dates:** 11 March 2015 – 11 April 2016

**Title:** Resident doctor, Emergency Medicine.

**Hospital:** Omdurman teaching hospital, Sudan.

**Duties and Responsibilities:**

As my first job in ED, it was a good opportunity to work in a tertiary centre which gave me the chance to discover my interest in the emergency medicine.

Managing the patients according to the local and international guidelines and dispose the cases to the relevant specialities after providing the initial management for the trauma, medical and other emergencies.

Recognise the severely ill patients as the hospital has no effective triage system and a rush of patients and report the ED registrars and consultants to provide more advance level of care.

### **Pre-Registration Appointments (Internship program):**

Location: (Khartoum, Sudan).

Date: 12/2013 – 12/2014, 3 months in each specialty.
